● ABOUT ME

I am a passionate frontend engineer with several years of experience and related educational background.

● WORK EXPERIENCE

06/03/2020 – CURRENT Remote, Romania

FRONTEND ENGINEER AROBS TRANSILVANIA SOFTWARE

As a **Frontend Engineer** at Arobs Transilvania Software, I contribute to the development of a cloud-based Point of Sale web application for the travel industry. Working within a **Scaled Agile Framework** (SAFe) methodology, my responsibilities include **analyzing** upcoming features, creating **technical design documents**, presenting them to engineering managers and technical leaders, to **refine/estimate the features** later on while **collaborating** with UI/UX Designers, Product Managers and a development team to deliver high-quality solutions.

I have developed several **key features** from the ground up, and up to this day I am a key person when it comes to extending/reworking any of those functionalities.

So far I have also won several internal company awards, as a recognition from my colleagues for always helping them and always coming up with quality solutions quickly, no matter how bad or urgent the situation is.

Key Technologies:

- Frontend Development: **React, Redux** on **micro-frontend** repositories
- Backend Development: **Node.js, Express, GraphQL** on **micro-service** repositories
- Testing: **Jest, React Testing Library** for **unit & integration testing** and also **API/Contract Testing** with **Postman**

Development Strategies:

- Version Control: **Git, Trunk Based Development** (TBD)
- **Behavior-Driven Development** (BDD): **Gherkin** syntax
- **Test-Driven Development** (TDD)

Additional Skills and Technologies:

- Familiarity with **Kubernetes CLI** for service analysis and also with tools such as **ArgoCD & Splunk**

Collaboration and Communication:

- Experienced in working with **diverse teams** and individuals from various **cultural backgrounds**
- **Adaptability** and **proactive** approach to integration within teams

Mentoring and Career Development:

- Mentoring junior colleagues in their career growth plans, setting objectives based on their seniority level, tracking their progress and provide feedback
- I have also opted in myself to the company's career growth plan the moment I joined after my internship, and as a result of continuously exceeding my mentor's expectations throughout the years, I have moved up the seniority level ladder from being an intern to senior in less than 4 years

● **EDUCATION AND TRAINING**

10/2019 – CURRENT Cluj-Napoca, Romania

MSC IN E-BUSINESS Babes-Bolyai University of Cluj-Napoca
